

For Raza sizing developer

Tuesday, November 28, 2023 8:06 AM

Once we have the 2 values, we display the corresponding images below.
Here we plot and find the appropriate model to use. If we can't display the plot that's okay, we can just show the images as a reference.

Example:

Flow rate = 171gpm for simplex

Total head of BP = 226 feet
